4. PROVISION OF SERVICES

4.1 Market Maker Model

The Company acts as principal and market maker in respect of the Financial Products offered. This means that the Company may act as the counterparty to Client transactions, set bid and ask prices, and assume market risk arising from Client trading activity. The company reserves the sole right to select and manage the assets that are available to clients at any one time and may modify or change the available list of available assets without prior notice or explanation. All the company's clients accept that from the moment a transaction has been executed, it cannot and will not be cancelled or reversed. Our clients therefore understand that sufficient thought and comprehensive checks must be carried out before going ahead with any trade and/or investment.

The company is only to be bound by any information or communication exchanged between any other parties, by way of writing as stated in Customer Service and Customer Complaints/Dispute section (only by e-mail). The company is not responsible for saving any trade and/or investment history and the client should save all of the details the company giving him, written or verbal and/or all the information

that is relevant for his investment and/or trades, including prices, dates, etc. As such, our advice, communications and notices in general will only be considered valid and binding if they are presented in writing by e-mail. All clients and customers of the company accept that trading is inherently a highly speculative and potentially risky approach to investing, therefore the client accepts full responsibility for any outcomes and consequences that arise from their actions while using this website .

Clients accept that the extremely fast-paced nature of certain types of investment and/or trade makes it possible to both win or lose significant sums of money in very short periods of time. It is the responsibility of the client to seek independent advice should it be required, as a means by which to facilitate safe and responsible trading and/or investment services in the client behalf. The company liability in instances where damages incurred result in compensation payments will be strictly limited to the total amount that the client in question has deposited in their account, subject to that client proving their case. Under no circumstances will the company be held liable for additional damages such as loss of profits, regardless of the cause of the incurred loss.

Clients accept that the company will not accept any liability whatsoever for any obligational breach or default on the part of depositaries, clearing houses, exchanges, market operators, custodians, sub-custodians, banks, brokers or counterparties with whom you conduct business of any kind, as well as force majeure scenario. The company will not be held liable for losses suffered as a result of using the company website.

4.2 Execution Basis

Although the Company acts as market maker, services are provided on a non-advisory basis. The Company does not provide investment advice, portfolio management, or personalized recommendations, and does not assess suitability or appropriateness unless required by Applicable Regulations.

4.3 No Fiduciary Relationship

The Client acknowledges that the Company does not act as fiduciary, trustee, or agent for the Client. All trading decisions are made solely by the Client, who bears full responsibility for outcomes.

4.4 Conflicts of Interest

The Client acknowledges that conflicts of interest may arise as a result of the Company acting as market maker, including where the Company holds positions opposite to those of the Client. The Client expressly consents to such conflicts as inherent in the market maker model.

4.5 Pricing Discretion

The Company determines prices at which it is prepared to deal, taking into account market conditions, liquidity, risk management, and internal pricing models. Prices may differ from prices available in underlying or external markets.

4.6 Right to Refuse or Modify Services

The Company may suspend, restrict, refuse, or modify services, instruments, pricing, leverage, or margin requirements at its discretion for risk management, regulatory, liquidity, or operational reasons.

Using leverage and margin - We allow you to trade instruments using leverage. Leverage is a form of borrowing which allows you to deposit only a part of the cost of your transaction upfront. This deposit is called "margin" and is used by us as security against any potential losses you may incur. The more leverage you use, the less margin you need. Money being used as margin cannot be taken out of your account.

Different amounts of leverage apply to different underlying products. It is your responsibility to monitor the money in your account against your potential losses, the margin required, and whether your position is close to your stop level, as we will not notify you when this happens. If you do not have enough money in your account to meet the margin requirement on a certain position, you should :close your open position to stop you losing more money; partially close your positions; and/or adjust your stop levels. The ability to adjust your stop levels is subject to you having the appropriate funds in your account. Unless you carry out one or more of the above steps, your trade will be closed irrespective of the total money available in your account or the performance and balance of your other open positions. Your trade will be closed without prior notice to you and without an opportunity for you to choose the timing of liquidation. You acknowledge and accept the fact that in accordance with legal regulations and requirements, the company may freeze or restrict accounts, impose limitations on services offered, deduct tax payments of any kind and to any

extent or take whatever action may be required, should we be instructed to do so by the relevant authorities. The company also accepts no liability whatsoever for any loss, damage or detrimental consequences suffered as a result of any action taken by the company, in accordance with the express instructions of legal authorities, regulators or financial institutions.

All promotions which we offer will have specific terms and conditions which apply to that promotion. We can change, or stop providing a promotion, in accordance with the terms and conditions of that promotion.

The company reserves the right to promote and advertise special offers, services, products and general data from any third-party providers as deemed appropriate.

Where such promotional listings, or links appear, they are provided strictly on a casual and impartial basis and do not necessarily represent direct suggestions or advice from the company. As such, the company will not be held responsible for any outcomes or eventualities resulting from pursuing advertise promotions or following any links published on the company website.

The company reserves the right to withdraw any promotion, competition, bonus or special offer at any time.

The company offers a number of attractive reward features to its new and regular customers. Bonuses and one-time trading credits rewarded to customers are part of the company's promotions program. These bonuses are limited time offers and the terms and conditions associated with any bonus rewards are subject to change.

The client can withdraw his deposited balance and the profit generated from both his deposited balance and from the provided bonus if all terms of the promotions are fulfilled. There is no option to withdraw a bonus itself. In the event the client withdraws funds from his trading account, his bonus could be deducted from the account.

You may not be able to withdraw funds from your account if such withdrawal would result in insufficient balance to cover any open positions, unsettled transactions, applicable fees, charges, or obligations arising under the Company's Terms and Conditions.

To ensure compliance with applicable laws and to protect against fraud, the Company reserves the right, at its sole discretion, to impose limitations on withdrawal amounts and frequency. All withdrawal requests are subject to internal review and verification procedures. All clients accept that trading represents a fundamentally risky form of investment and therefore, should only be approached and utilized by those with the relevant knowledge, experience and financial background.

Volatility can be extremely high and the potential for facing heavy losses in a very short period of time is often high. It is perfectly possible for the entirety of the funds within an account to be lost instantaneously, even if the asset in question swings just fractionally in the wrong direction at the wrong time. It is, therefore, imperative that traders only ever invest disposable capital the likes of which is not dependent upon for facilitating a basic lifestyle. With outcomes being comprehensively impossible to predict accurately 100% of the time, it is important to ensure that your business and your life in general will not be detrimentally impacted if you are unsuccessful in any given trade. As such, the company's customers confirm that all capital used for investment purposes is risk capital and therefore total loss with any investment will not detrimentally affect their lives in any way. Clients fully acknowledge the fact that each and every investment presents a relatively high risk of loss and that in the event of loss the clients and only the client bears full responsibility. Individuals who do not have sufficient risk capital to invest in such ventures must not use the site and services of the company. The Company's activities are not insured by private Client Money Insurance policy, nor by any government's program protecting Clients' funds, including in the event of Company's insolvency or other financial loss caused by any reason whatsoever.

Clients agree that the company reserves the right to round-off the last digit of asset and option prices. In addition, option price adjustments will be made by the company in accordance with any adjustments made to the prices of base assets. Clients agree that the company reserves the right not to submit the client's trade and/or investment to the market and/or to any other relevant place. In this scenario, the company shall pay the client's profit if the client closed position and/or trade and/or investment with profit. This scenario can apply even if the client can see the trade and/or investment in the market and/or the trading platform. In any event, the customers' deposits won't be a debt obligation. And no customers will ever be creditors of the company.

A daily financing charge may apply to each Stock and/or Crypto and/or CFDs and/or financial instruments open position at the closing of The Company's trading day. In case such charge is applicable - it will be deducted directly from the Client's account balance. The method of calculation of the financing charge varies according to the type of financial instrument. The Company reserves the right to change the method of calculating the financing charge and/or the financing rates. Changes in our fees and/or interest rates and/or calculations and/or financing charge shall be at our own discretion and without notice. The Client's responsibility is to check the daily financing charge and/or fees rate and/or interest rates and/or changes in rates (by contact our Company by e-mail or phone). The Client always needs to check the current fees and rates. Please note, the fee may change quickly due to market conditions (changes in interest rates, volatility, liquidity, etc.) and due to various risk-related matters that are at the Company's. The Company charges fees for keeping a trade for more than 24hr and/or for more than one business day. The Company charges the fee directly from the Client's balance. The Company reserves the right to change the method of calculating the fee rate. Changes in our fees rates and calculations shall be at our own discretion and without notice. The Client's responsibility is to check the fees rate and/or for changes (by contact our Company by e-mail or phone). The Client always needs to check the current fees. Clients are obliged to pay the company any and all outstanding charges and commissions upon demand, which we may request at any time either in part or in full, in order to satisfy outstanding debts. In any instances where owed are not repaid as required, we may begin higher level debt collection procedures which will result in all attached costs and legal fees incurred being passed on to the client in question. When such payments are requested, the client is obliged to make the payment by the end of the same working day, with payments being made in the specified currency and to the specific bank account as we, the company, specify.

By using the sites and services of the company, you expressly agree that any and all charges and expenses arising in connection with payments owed represent the sole responsibility of you, the client – our company and its employees will not be held liable under any legitimate circumstances. This clause will be applicable even after termination of any Agreement between yourself and the company.
